Beginners

Explore your skills, interests and shape your career accordingly.

A new Beginning.

Duration: Two-Months Curriculum, three Hours in a week:

Lecture	Topics	Project
Excel	Introduction to excel	Data Analytics
Python	Arithmetic, Loops, Libraries	Calculator
Python		Chatbot
Python		Guessing Game
Artificial Intelligence	Supervised	linear regression system
Artificial Intelligence		Image recognition system
Artificial Intelligence	Unsupervised	Weather prediction
Artificial Intelligence		Stock price prediction
Aerospace	Aero-plane commercial	Working mechanism, Design, systems & Subsystems of the Aero-plane

Aerospace	Engine	Working mechanism & Design, Systems & Subsystems of Jet engines
Aerospace	Drone	Designing a drone from the scratch & Introduction to Autopilot
Aerospace	Rocket	Working mechanism & Design, Systems & Subsystems of Jet engines
Website	HTML	Making a website from the scratch
Website		Making a website from the scratch
Website	CSS	Website advancement
Website		Website advancement, and introduction to bootstrap
Java Script	Basics	Basics of JavaScript
Java Script	Canvas	Drawing, Flag, A working Clock
Java Script	Screensavers	Animation
Java Script	2D Games	Making a Pinball Game
Defence tech	Artillery	Introduction to the bullet proof jacket, Surface to Air & Air to Air Missiles
Defence tech	Defence electronic warfare system	Introduction to submarine, Jammer, & Radar
Robotics	Sensors, and Introduction to Arduino	Making a circuit to control a LED using the ARDUINO, Introduction to sensors
Robotics	Using Arduino, servos & sensors	Making a collision avoidance robot from the scratch
Robotics	Making home appliances automatic	Automatic room lightning system using a Microcontroller
Robotics	Simulation	Simulating various IOT projects using online platforms
Virtual reality/ 3D hologram	Introduction	Virtual Reality APP
Virtual reality/ 3D hologram	Making a Game	3D Game

App Development	Interactive	Messaging App, Currency Converter
Game Development	Making a Game	Basketball, Firefly-1

Qwings cater to the students according to their interests. The kids would be solving real-life problems. We aim to make our students confident enough to come up with a solution to any problems, and encourage them to have an entrepreneurial mindset, wherein they can be creative and they can be a job creator rather than just job seekers.

Qwings is an initiative by the alumni of following esteemed institutions:

IIT MADRAS

b.tu Brandenburg University
